

WATER EFFLUENT

WATERMAN ENGINEERS AUSTRALIA HAS DECADES OF EXPERIENCE IN WATER, WASTEWATER, EFFLUENT RECYCLING, ZERO LIQUID DISCHARGE SYSTEM, INCINERATOR, PLASMA PYROLYSIS SYSTEM, CAUSTIC RECOVERY SYSTEMS, METAL RECOVERY FROM EFFLUENT, ARSENIC REMOVAL PLANTS CONCEPTS TO COMMISSIONING.

ABOUT US

Waterman Engineers Australia has been doing turn key projects for mining, pharmaceuticals, oil and gas, food and beverages, bulk drugs, pesticides, dairy, textile, dyes and intermediates, api, petrochemical, biotechnology, automobile, power industries, greenfields projects, concept to commissioning around the globe. We do drinking projects for villages, municipalities as well. In recent times, we have taken challenges for waste to fuel oil, and fuel gas conversions projects with the help of plasma pyrolysis technology.

OUR PROJECTS

PRODUCT RANGES

- Water Treatment Plants
- Wastewater Treatment Plants
- Solid Liquid-Waste Management
- Incinerator Systems
- Drinking Water Systems
- Mineral Water Plant
- Effluent Recycling Systems
- Reverse Osmosis Systems
- Desalination Plants
- Caustic Recovery Plant
- Solvent Recovery Plant
- Spray Dryers
- Crystallisers
- Energy Drink Plants
- Water Filtration Plants
- Vitamin Water Plants
- Scrubbers
- MEE Plants
- ATFD & ATFE Plants
- Sewage Treatment Plant
- Vitamin water, Energy drink, Beverages projects
- Pharma Grade High Purity Water Systems, EDI Systems
- Zero Liquid Discharge System
- ESG Consultation Services
- Task Force on climate-related FD, TCFD
- Global Reporting Initiative (GRI)
- Sustainable Development Goals, SDG
- Effects of Pollution on Sustainable Finance, TCFD, SDG, GRI, ESG.
- Solar Based Water Treatment Plants
- Off Grid Solar Water Treatment Plants
- Plasma Pyrolysis Systems
